TIME OF DAY

DAWN

This Climb departs before daybreak with limited departures throughout the year. Witness the sun breakthrough on the horizon as the city comes to life.

DAY

There are so many spectacular views throughout the day from morning to late afternoon (after "dawn" and before "twilight"), exposing the hum and buzz of the city in full swing.

TWILIGHT

Climb as the day closes and the night begins. Take in the magic of twilight and get the best of both worlds as the skies turn from day to night.

NIGHT

This Climb departs after the sun has set (after "twilight"), introducing the illumination of Sydney at night, as it sparkles under a blanket of darkness.

FOR GROUPS OF 200+ WE CAN OFFER A HYBRID CLIMB ROUTE, WITH 5-MINUTE DEPARTURES ACROSS BOTH ARCHES TO ALLOW MORE DELEGATES TO CLIMB AT ONCE.
